- Supports video resolutions up to 1600 x 1200 @ 75Hz

Package Includes

- Smart 108 SPU
- USB to PS/2 Adapter
- RS232 Cable

Description

Save Space and Money

The Smart 108 SPU is a single-user analog Cat5 KVM switch that gives you the ability to control multiple computers or servers from a single keyboard/video/mouse console. The rack mountable, 1U-sized switch features innovative ROC (RICC on cable) dongle technology that directly connects you to each server in the rack, eliminating cable clutter and the need for multiple consoles.

From SOHO to Enterprise

The Smart 108 SPU is ideal for multiple server environments, from the small home office to the enterprise data center. Whatever the application, a company operating several servers can now connect them all to a single keyboard, video and mouse console, and operate them with 30m/100ft of range between the server and switch.

Features

- 8 Ports
- BIOS level access
- Multilayer security
- Multi-platform – PS/2 and USB support
- Extends distance between servers and switch up to 30 meters/100 feet over Cat5e cabling
