

Ref No.
September 21, 2012,
Attention:
Dear .

RE: Change resin for housing of 0.5 B/B CONN.

Model Number

0.5B/B PLUG OVERMOLD
55650-0*88 (*=2,3,4,5,6,7 Refer to sales drawing about circuit number)
55650-**78 (*=30,40,50)

Content

We will change the resin material of the housing.
Dupont ZENITE 7130 → Polyplastics VECTRA E130i

Reason: Supplier, and location where the molding compound materials has changed.
Therefore, a conventional support might not be received.
We are using the Vectra E130i as the material LCP.

Impact on product performance

We have made prototype samples of this change, and they are evaluated.
As a result, we have confirmed that the material change items are the equal to goods before change. Please see the attached report. In addition, there is no change in Sales Drawing.

Sincerely,

MASAMI SASAO Engineering 2-1 Director
TETSUYA ASAKAWA Engineering 2-1 Manager
KAZUMA TOYOTA Engineering 2-1 Engineer
