

Certificate of Declaration RoHS (Restriction of Hazardous Substances)

This document is a declaration that all Qualtek products comply with the RoHS Directive (2011/65/EU)

RoHS (Restriction of Hazardous Substances in electronics and electrical equipment) is a European Directive (2011/65/EU) that bans the use of certain materials produced in electronics and electrical equipment. All restricted materials have been eliminated or reduced to acceptable levels as stated in the directive 2011/65/EU of the European Parliament and of the council of 8 June 2011.

- Lead
- Hexavalent Chromium
- Polybrominated Biphenyls
- Pentabromodiphenyl ether (PentaBDE)
- Decabromodiphenyl ether (DecaBDE)
- Mercury
- Cadmium
- Polybrominated Diphenyl Ether
- Octabromodiphenyl ether (OctaBDE)

To distinguish Compliant product from Non-Compliant product, a RoHS Compliant (see below), is printed on the outer carton of the product, signifying that the product contained within the stamped package is RoHS Compliant

For information regarding RoHS Compliancy, please send an email to mailbox@qualtekusa.com with your name, contact information, and a brief description of the requested information.
