

BMI160

Shuttle Board

GENERAL DESCRIPTION

The Bosch Sensortec shuttle board BMI160 is a PCB with an Inertial Measurement Unit (IMU) BMI160 and a geomagnetic sensor BMM150 mounted on it.

It allows easy access to the sensors pins via a simple socket. As all Bosch Sensortec sensor shuttle boards have identical footprint, they can be plugged into Bosch Sensortec's advanced development tools (e.g. the Development Board or Application Board). Of course, the BMI160 shuttle board can also be used for customer's own implementations.

Note: Product photo may differ from real product's appearance.
