# Honeywell

### **Interactive Catalog Supplements Catalog PDFs**

If you need detailed product information, or help choosing the right product for your application, see our <u>Interactive Catalog</u>. Use the <u>Interactive Catalog</u> to access the most complete and up-to-date information available.

The Interactive Catalog provides an extensive collection of product specifications, application data, and technical literature that can be searched based on criteria you select.

This PDF catalog information was published in November 2000.

**Application Note:** Honeywell MICRO SWITCH does *not* recommend the use of silver cadmium oxide switch contacts in non-arcing loads. Non-arcing loads are generally loads less than 12 volts and/or 0.5 amp. TL switches use silver cadmium oxide contacts. For other options, contact the MICRO SWITCH Application Center at 1-800-537-6945.

#### **FEATURES**

- Qualified to MIL-S-3950
- Environment-proof sealing
- 1, 2, and 4 pole circuitry.
- Standard and pull to unlock levers.
- 2 and 3 position, maintained, and momentary toggle action.
- Temperature range: -85°F to +160°F (-65°C to +71°C).
- UL recognized, CSA certified.
- CE approved

#### CONSTRUCTION

TL's have high strength, temperature resistant, non-tracking case material and silver cadmium oxide contacts.

#### **ACTUATOR OPTIONS**

Standard toggle lever operates on a direct action spring loaded toggle mechanism to provide excellent tactile feedback in both the momentary and maintained toggle positions. The toggle lever is approximately .68 in. (16 mm) long and has a non-glare matte nickel plated finish.

Pull-to-unlock toggle levers prevent accidental toggle movement. The knobbed toggle lever must be pulled out approximately .09 in. (2,3 mm) to change positions. Thirteen different locking configurations are available. This lever style also has a non-glare matte nickel finish.

Colored tab levers (not shown) can also be furnished. They have the same appearance as the tab lever shown in the TW photo on page 119. Call the 800 number.

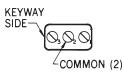

#### TL Series

### **Toggle Switches**

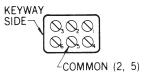

## TERMINAL CIRCUIT IDENTIFICATION

Terminal identifications are referred to in the order guides to indicate which circuits are made in each toggle position (i.e., 1-2 refers to circuit closure through terminals 1 and 2).

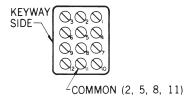

#### One pole

#### Two pole

#### Four pole

#### **TERMINALS**

In addition to the screw terminal switches listed in the order guides, IWTS Integrated Wire Termination System versions (covered in MICRO SWITCH Catalog 80) and solder turret terminals are available. Contact the 800 number.

#### SPECIAL CIRCUITRIES

Catalog listings with -10, -50, and -70 suffix numbers shown in the order guides have special "On-On-On" circuits, as illustrated. TLs with -12 suffix are the same as -50 except the keyway position is maintained, and in the center position circuits

2-3 and 4-5 are made; -72 is the same as -50 except that the opposite keyway position is momentary, and in the center position circuits 2-3 and 4-5 are made.

<sup>\*</sup> These positions only are momentary. All others are maintained. \*\* Also add the appropriate suffix letter to the Military number.

#### **PULL-TO-UNLOCK OPTION**

When ordering pull-to-unlock toggle listings, add the suffix letter shown in the chart below to the standard toggle listing and the MS number. For example, to order a 1TL1-1 pull-to-unlock toggle switch with the lever locked in the center position, add the letter E; i.e., 1TL1-1E, MS-24658-21**E**.

\* These positions only are momentary. All others are maintained.

\*\* Toggle lever is blocked from these positions. Toggle becomes two position, with center being one extreme position.

\*\*\*Also add appropriate suffix letter to the Military Number.

#### SOLDER TURRET TERMINAL VERSION

#### **HOW TO ORDER**

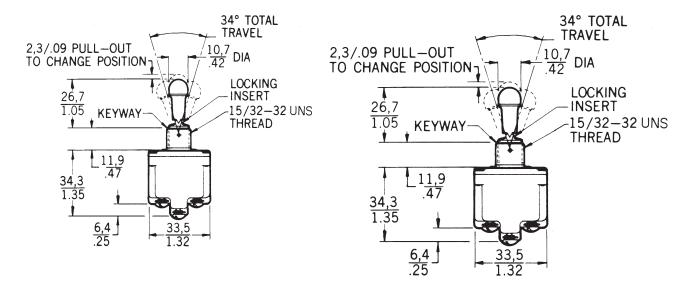

11TL, 12TL, and 14TL type switches with solder turret terminals are qualified to MIL-S-3950. They have the same circuitry and electrical ratings as their 1TL, 2TL, and 4TL counterparts. For example, 11TL1-2 is the same as 1TL1-2, except it has solder turret terminals instead of screw terminals. The complete MS drawing numbers are shown in data sheet 204.

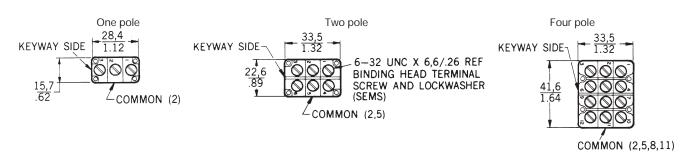

| Circuitry | Туре  | Std. Lever | Lever Lock |
|-----------|-------|------------|------------|
| One Pole  | 11TL  | MS27734    | MS27737    |
| Two Pole  | 612TL | MS27735    | MS27738    |
| Four Pole | 14TL  | MS27736    | MS27739    |

Toggle/Rockers

## Toggle Switches

**MOUNTING DIMENSIONS** (For reference only)

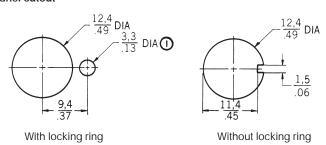

#### Note:

Terminal screws, and mounting hardware (locking ring, lockwasher, and two hexnuts) are furnished unassembled.

Key: 
$$\frac{0.00 = mm}{0.00 = inches}$$

#### Panel cutout

Bushing mounting torque is 10–15 in./lbs. Terminal screw mounting torque is 5 in./lbs. max.

#### Note:

① 1,4/.06 MIN DEEP TO ACCOMMODATE LOCKING RING. 15PA87 PANEL SEAL REQUIRES BLIND HOLE TO INSURE SEAL INTEGRITY
