Additional information

The max. overall length of the lamp may not exceed 25mm

Electrical and optical data are measured at 25 °C

The specified 6 VDC, 24 VDC Bi-colour; 130 VAC, 130 DC und 230 VAC versions are built with a protection diode

If the 24VDC Bi-colour lamp is driven with normal polarity (plus on middle contact of the lamp) the first mentioned colour will light up, with inverted polarity the second colour will light up

Luminosity and wave length variations caused by LED manufacturing processes may cause slight differences regarding the illumination
