CC H	
Material	304 Stainless Steel
VCSC	
Material	Body: Soft steel, electrogalvanized .02" (0,5 mm) thick Coating: Soft, black PVC, .032" (0,8 mm) minimum thickness

- For clamping cable or tubing securely into place, especially in **harsh environments**.
- Smooth “coined clamp” edges prevent damage to cable insulation.
- Constructed from corrosion resistant 304 stainless steel.
- Coated parts are constructed from 304 stainless steel and coated with polyolefin a thermoplastic co-polymer.
- Coating provides a durable non-toxic, odorless coating that has very good low temperature flexibility and excellent electrical properties. This coating also has **FDA food contact** approval.
- All parts require a .203” (5,2 mm) mounting hole suitable for a #10 screw.
- Consult Heyco for larger sizes.
- Not for use in a marine salt water environment. Contact Heyco for alternative materials.

- Flexible soft steel easily bends and forms to desired shape and holding diameter.
- Vinyl coating both grips and insulates the cable or wire bundle.
