SPECIFICATIONS

Essentials

Status	Launched
Launch Date	Q3'13
Processor Number	G3320TE
# of Cores	2
# of Threads	2
Clock Speed	2.3 GHz
Intel® Smart Cache	3 MB
DMI2	5 GT/s
# of QPI Links	1
Instruction Set	64-bit
Instruction Set Extensions	SSE4.1/4.2
Embedded Options Available	<input type="checkbox"/> Yes
Lithography	22 nm
Max TDP	35 W
Thermal Solution Specification	PCG 2013A
Recommended Customer Price	

Memory Specifications

Max Memory Size (dependent on memory type)	32 GB
Memory Types	DDR3-1333/1600
# of Memory Channels	2
Max Memory Bandwidth	25.6 GB/s
ECC Memory Supported †	<input type="checkbox"/> Yes

Graphics Specifications

Graphics Base Frequency	350 MHz
Graphics Max Dynamic Frequency	1 GHz
Intel® Quick Sync Video	<input type="checkbox"/> No
Intel® Clear Video HD Technology	No
# of Displays Supported †	3

Expansion Options

PCI Express Revision	3.0
PCI Express Configurations †	Up to 1x16, 2x8, 1x8/2x4

PCN/MDDS INFORMATION

SR181
929229: MDDS

Max # of PCI Express Lanes	16
Package Specifications	
Max CPU Configuration	1
T _{CASE}	72°C
Package Size	37.5mm x 37.5mm
Graphics and IMC Lithography	22nm
Sockets Supported	FCLGA1150
Low Halogen Options Available	See MDDS
Advanced Technologies	
Intel® Turbo Boost Technology ‡	No
Intel® vPro Technology ‡	<input type="checkbox"/> No
Intel® Hyper-Threading Technology ‡	<input type="checkbox"/> No
Intel® Virtualization Technology (VT-x) ‡	<input checked="" type="checkbox"/> Yes
Intel® Virtualization Technology for Directed I/O (VT-d) ‡	<input type="checkbox"/> No
Intel® TSX-NI	No
Intel® 64 ‡	<input checked="" type="checkbox"/> Yes
Idle States	<input checked="" type="checkbox"/> Yes
Enhanced Intel SpeedStep® Technology	<input checked="" type="checkbox"/> Yes
Thermal Monitoring Technologies	<input checked="" type="checkbox"/> Yes
Intel® Stable Image Platform Program (SIPP)	No
Intel® Data Protection Technology	
AES New Instructions	<input type="checkbox"/> No
Intel® Platform Protection Technology	
Trusted Execution Technology ‡	<input type="checkbox"/> No
Execute Disable Bit ‡	<input checked="" type="checkbox"/> Yes

All information provided is subject to change at any time, without notice. Intel may make changes to manufacturing life cycle, specifications, and product descriptions at any time, without notice. The information herein is provided "as-is" and Intel does not make any representations or warranties whatsoever regarding accuracy of the information, nor on the product features, availability, functionality, or compatibility of the products listed. Please contact system vendor for more information on specific products or systems.

"Intel classifications" consist of Export Control Classification Numbers (ECCN) and Harmonized Tariff Schedule (HTS) numbers. Any use made of Intel classifications are without recourse to Intel and shall not be construed as a representation or warranty regarding the proper ECCN or HTS. Your company may be the exporter of record, and as such, your company is responsible for determining the correct classification of any item at the time of export.

"Announced" SKUs are not yet available. Please refer to the Launch Date for market availability.

Some products can support AES New Instructions with a Processor Configuration update, in particular, i7-2630QM/i7-2635QM, i7-2670QM/i7-2675QM, i5-2430M/i5-2435M, i5-2410M/i5-2415M. Please contact OEM for the BIOS that includes the latest Processor configuration update.

‡ This feature may not be available on all computing systems. Please check with the system vendor to determine if your system delivers this feature, or reference the system specifications (motherboard, processor, chipset, power supply, HDD, graphics controller, memory, BIOS, drivers, virtual machine monitor-VMM, platform software, and/or operating system) for feature compatibility. Functionality, performance, and other benefits of this feature may vary depending on system configuration.

See <http://www.intel.com/content/www/us/en/architecture-and-technology/hyper-threading/hyper-threading-technology.html?wapkw=hyper+threading> for more information including details on which processors support Intel® HT Technology.

Max Turbo Frequency refers to the maximum single-core processor frequency that can be achieved with Intel® Turbo Boost Technology. See www.intel.com/technology/turboboost/ for more information.

The Recommended Customer Price ("RCP") is pricing guidance for Intel products. Prices are for direct Intel customers and are subject to change without notice. Taxes and shipping, etc. not included. Prices may vary for other package types and shipment quantities, and special promotional arrangements may apply. Listing of these RCP does not constitute a formal pricing offer from Intel. Please work with your appropriate Intel representative to obtain a formal price quotation.

System and Maximum TDP is based on worst case scenarios. Actual TDP may be lower if not all I/Os for chipsets are used.

Low Halogen: Applies only to brominated and chlorinated flame retardants (BFRs/CFRs) and PVC in the final product. Intel components as well as purchased components on the finished assembly meet JS-709 requirements, and the PCB / substrate meet IEC 61249-2-21 requirements. The replacement of halogenated flame retardants and/or PVC may not be better for the environment.

For benchmarking data see <http://www.intel.com/performance>.

Intel processor numbers are not a measure of performance. Processor numbers differentiate features within each processor family, not across different processor families. See <http://www.intel.com/content/www/us/en/processors/processor-numbers.html> for details.

Processors that support 64-bit computing on Intel® architecture require an Intel 64 architecture-enabled BIOS.
